

ABDULLAH JAWAHIR

UNDERGRADUATE

As a Software Engineering Undergraduate, I bring a strong foundation in HTML, CSS, JavaScript, and React.js. My focus is on securing a volunteer position where I can contribute and thrive in a culture of continuous learning and growth. With a passion for creating exceptional digital experiences and a commitment to excellence, I am willing to join as a volunteer and apply my skills and enthusiasm to contribute to meaningful projects within a collaborative team environment that values individual development.

EDUCATION

- Pearson BTEC Hnd in Computing - Software Engineering (Reading)**
October 2022 - Present
Esoft Metro Campus
Skills: C# | C# Windows Forms | Object Oriented Programming | Java | Data Structures & Algorithms | HTML5 | CSS3 | Sass | JavaScript | React JS | MySQL | MSSQL | PHP | Figma | Adobe Photoshop | Git & GitHub | Responsive Web Design | Database Design & Development
- Advance Level | Physical Science**
June 2019 - August 2021(2022)
Gampola Zahira College

CERTIFICATIONS

- Python for Beginners**
Issued on July 2022
University of Moratuwa
- Python Programming**
Issued on September 2022
University of Moratuwa
- Web Design for Beginners**
Issued on August 2022
University of Moratuwa
- Responsive Web Design**
Issued on November 2023
Free Code Camp

TECHNICAL SKILLS

- Content Management System:** Wordpress
- Web Development:** HTML, CSS, SASS, Bootstrap5, JavaScript, React Js
- Programming Language:** Python, C#, Java (Learning), PHP
- Database Management:** MySql, Microsoft SQL Server
- Other tools:** MS Office, Git & Github, Web API, Canva, Adobe Photoshop, Figma

PROJECTS

AuraSnap Photography Management Website

HND - Esoft Metro Campus

- Utilized HTML, CSS, and JavaScript for a visually appealing and responsive design.
- Implemented back-end functionalities using PHP for dynamic content management and robust admin features.
- Emphasized stability through Git version control, ensuring a well-organized and collaborative development process.
- Applied continuous integration and testing practices to maintain a stable and reliable platform.
- Integrated a secure user authentication system for controlled access and stringent security measures to enhance data protection.
- Designed the platform with user-friendly navigation, ensuring an intuitive and seamless experience.
- Implemented an intuitive contact form for easy communication within the system.
- Enabled dynamic image uploading to enhance the user experience, providing a feature-rich environment for managing photography portfolios.

Employee Management System

HND - Esoft Metro Campus

- Established connectivity to an SQL database to facilitate seamless data interaction.
- Implemented functionality to calculate base, gross, and net pay for registered employees.
- Designed the system to generate detailed reports, providing comprehensive insights into payroll information.
- Ensured secure data management practices to protect sensitive employee information.
- Combined the power of C#.NET and SQL for efficient data processing and storage.
- The system prioritizes accuracy and reliability in payroll calculations and data reporting.

React Todo App

Frontend Mentor

- Implemented a user-friendly interface with a focus on a seamless user experience.
- Demonstrated expertise in state management and component interaction within the React framework.
- Utilized CSS for styling, ensuring a visually appealing and responsive design.
- Addressed challenges with careful consideration of state management for smooth theming transitions.
- The project highlights a commitment to continuous improvement and evolving the application's capabilities.
